

EDUCATION

Hunan University of Technology	Zhuzhou, China
Bachelor of Engineering in Industrial Design	
- Academic Performance: National Scholarship、Rank 1/67 - Selected Awards: China Collegiate Computing Contest (Central China Region) - 1st Prize; Blue Bridge Cup (Hunan Region) - 2nd Prize; Future Designer National College Digital Art & Design Awards (Hunan Region) - 2nd Prize; 2 Software Copyrights - Certifications: CET-6 (508), Computer Proficiency Test Level 2 (MS Office), Putonghua Proficiency Test, Level2 GradeB	

EXPERIENCE

QuickWis Technology Co., Ltd. Product Management	Changsha, China
Product Management Assistant / Product Operations Intern	Jul 2025 - Sep 2025 · Aug 2026 - Sep 2026
- Managed user support and issue diagnosis across reimbursement, invoice, and Excel export scenarios; reproduced issues, coordinated resolutions, and documented SOPs and FAQs. - Synthesized multi-channel user feedback and requirements, identifying key pain points to support product optimization and roadmap planning. - Supported WeChat/Xiaohongshu content operations and creator outreach, coordinating with 10+ creators and producing 10+ product tutorials; managed acquisition channels generating 50+ daily users, including 30+ daily users from a core channel. - Supported iOS launch and ASO via App Store Connect, managing metadata, keywords, privacy details, review materials, and 4 screenshot sets to enable a compliant release.	

PROJECTS (personal self-directed project)

Xiaojiangxing - Urban Intangible Cultural Heritage Exploration App	Product / UX Design
- Defined core features, user flows, and information architecture through user research and competitor analysis. - Designed map exploration, POI, AR recognition, and task flows, delivering interaction and high-fidelity UI designs. 2nd Prize, Blue Bridge Cup - Hunan Region, Interaction Design (UI).	
Yanhu Research Assistant - AI Agent for Academic Research	Product / UX Design
- Conducted user research and requirement analysis with 80+ paying educators, defining core needs for paper reporting, information retrieval, and knowledge management. - Designed the Agent workflow, product architecture, and core flows, driving mobile interaction design and prototype validation.	

XML Invoice Viewer & Downloader	UX Design / Full Stack / Product Operations
- Contributed to an XML e-invoice tool across product and operations, including requirement analysis, feature implementation, UI optimization, channel promotion, and multi-platform content distribution, with ongoing iteration based on user feedback and data. - Obtained the Software Copyright for "XML Invoice Viewer System V1.0".	

Other Projects: UPNOW | Sedentary Reminder Product - user research, product design, and interface design.
eJiaHu | Digital Support Assistant for Elderly Families - responsible for user needs, service flow and interaction design.

SKILLS

- Growth & Marketing: User Acquisition, Content Operations, Channel Analysis, SEO/ASO, Traffic Tracking (Baidu Analytics)
- Product & Operations: Requirement Analysis, User Research, Product Testing, App Launch Support, Documentation, SOP/FAQ, Cross-functional Coordination
- Design & Tools: Figma, Axure, XMind, Photoshop, Illustrator, Keynote, User Flow, Interaction Design
- AI & Languages: ChatGPT, Claude, Cursor, AI-assisted Prototyping / Vibe Coding | Mandarin (Native), English (CET-6: 508), German (Basic)

LEADERSHIP & ACTIVITIES

IDL Design Innovation Lab, Hunan University of Technology	Student Lead Jan
Coordinated projects and daily collaboration across a 70-80-member innovation community, partnering with faculty and student teams on communication, task coordination, and execution.	
Class Monitor, Industrial Design Class 2301	Class Monitor
Responsible for class affairs coordination, event organization, communication with teachers, and daily administration.
